

## American Rotary Product Comparison

### AR – Pro Series

Classic, easy start. Best for: Light to medium duty, general purpose loads. Offered in 3-30 HP.

### AD – Digital Smart Series

Digital, voltage balanced for CNC – Best for: Any load, especially resistive, rectified and computer loads such as CNC, VFD, EDM, battery chargers. Offered in 3-75 HP.

### ADX Smart ConverterTM

Digital, Hard Start for demanding loads – Best for: high inertia/friction loads such as Pumps, Fans, Compressors, Blowers, Dust Collectors, Fly-wheels. Offered in 3-300 HP.

### AI Series, Industrial Digital Smart Phase Converter

AI Industrial was designed specifically for the demands of industrial and agricultural applications. Our AI Industrial digital phase converter is perfect for your industrial applications, including grain drying and irrigation machinery.
