

NP785 ULTRA LOW DIFFERENTIAL PRESSURE TRANSMITTER

A CALL STATE OF THE STATE OF TH

DATASHEET - V2.0x B

INTRODUCTION

Ideal for HVAC, clean room, and flow measurement applications, **NP785 Ultra Low Differential Pressure Transmitter** is an ultra-low differential pressure transmitter for measuring overpressure, under pressure, and small differential pressure in neutral and non-corrosive gaseous media. Using the configuration software, it provides a linear signal output proportional to the pressure with configurable measurement range via USB.

NP785 can operate bidirectionally and measure differential pressure ranges from vacuum to positive pressure. Its ABS/PC housing for DIN rail mounting and its nickel-plated connectors accept pneumatic hoses with 4 or 6 mm inner diameter.

The analog output can be configured for 0-10 V or 4-20 mA, and since it has an RS485 interface, retransmission can be accomplished by Modbus RTU communication. Designed for HVAC and industrial environments, the device ensures temperature compensation for long-term stability and complies with EMC standards.

NOVUS AUTOMATION 2/3

^{***} Full Scale (F.S.): Under reference conditions: Ambient 23 °C \pm 3°C, 24 V supply, 250 Ω load. Vertical mounting. Line pressure: 0 mbar when applying Auto-Zero. **** With 0s filter.

^{*****} The resolution shown corresponds to the digital values read from registers 0 to 5 and is lower than the sensor resolution due to the limitation of decimal places. The digital values read from registers 6 to 11 have the same resolution as the sensor.

CONFIGURATION SOFTWARE

NXperience software is the primary tool for configuring, downloading, and analyzing data from the **NP785 Ultra Low Differential Pressure Transmitter**. It allows you to explore all the equipment features, communicating via the Micro USB type B interface, and is available in the Download Area at www.novusautomation.com.

CERTIFICATIONS

CE Mark / UKCA

This is a Class A product. In a domestic environment, this product may cause radio interference in which case the user may be required to take adequate measures.

WARRANTY

Warranty conditions are available on our website www.novusautomation.com/warranty.
