

PATLITE

VSST

Andon Light Assembly

4 Switch Control Box

6 Switch Control Box

VSST

Patlite's new VSST industrial grade switch box offers more options to meet a wide range of applications. It controls both light and buzzer functions for 1-5 light colors*, and up to 2 buzzer sounds (depending on capabilities of the selected signal tower). The VSST enclosure and operator devices meet industrial standards for long useful life. VSST Andon units arrive pre-assembled and ready for immediate installation and use.

- Compatible with Patlite's LCE, LU5, LES, and LE Signal Towers
- For use with 3 or 5 tier Patlite Signal Towers with flashing and buzzer capability
- Can accommodate up to 5 LED modules (Red, Yellow, Green, Blue, or Clear)
- Each LED can be selected for "flashing"*** and "steady" lighting—no need for re-wiring
- Wall Mountable
- Made of industrial grade material
- Power adaptor included

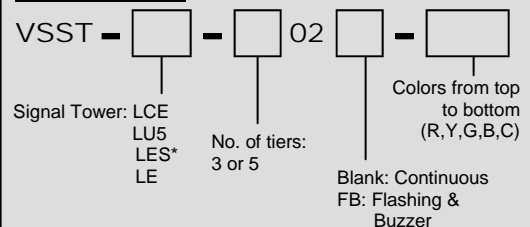

*1, 2, 4 tiers available by special order

**Must purchase Signal Towers with FB (flashing/buzzer) functionality

Applications

- Real-time line status indication for managers and line supervisors
- Workstations and work cells
- Lean Manufacturing, Safety, and Security Applications
- Manual Assembly Operations
- Retail check-out stations, Banks, Post Office, and Airport counters
- Call Centers

How to order:

*Note: LES has no FB option
